CPD - NZ AVIATION TECHNICAL SECTOR - 2019

Kia Ora team CPD

Yes, we are now nearly a quarter of the way through 2019....

The next CPD session is scheduled for **Thursday 28 March 1000-1100 (Zoom link below)**. We have two interesting presentations this month as follow:

- Session 1 - Lino Miguel, CAA: Lino is going to deliver a brief presentation on a morphing-wing project that he was involved. Please refer to the attached for more background information.
- Session 2 – Allan Knox, NZDF Capability Branch: Allan will present on the V1 RC model he helped build for the 2015 Omaka Air Show – ref the following link for some more background, but Allan will talk to the challenges associated with legally getting a 220lb scale model of a flying bomb into public airspace for an Air Show.

Question Handling:

- This time we will trial the Zoom Chat function – I will also make time available for open questions if possible.

Key Points:

- Briefs open to the entire NZ Aviation Technical Sector: NZDF, CAA, Air NZ, RAeS, AIRBUS, NMIT, DTA etc.
- Two presenters, 15 min each (10 min presentation, 2-5 min questions) per session.

- Presenters may elect to remain logged-in following the presentations to engage with personnel seeking additional interaction.
- The presentations will not be recorded.
- All presentations to be open source (UNCLAS).

Key Goals for this CPD Initiative:

- Continued Professional Development of the entire NZ Aviation Technical industry.
- Enhanced industry-wide engagement.
- Getting our valued personnel out of their technical stovepipes and (temporarily) into an environment of shared learning.

Finally, if you wish to be removed from this distribution, please reply to the sender. Equally, if you think we have missed someone, please let me know so I can add them to the list.
